ASAP accepted into the Mobility Solutions Competency Program for Microsoft Certified Partners!

Mobility Solutions

Louisville, KY – ASAP Automation has been accepted into the Mobility Solutions Competency that is part of Microsoft's Partner Program. The Mobility Competency underlines ASAP's leadership in Pocket PC/Smartphone development as part of our Supply Chain Execution solutions. Membership in the Mobility Solutions Competency provides ASAP with access to the various product groups within Microsoft, training opportunities and the advantage of being ahead of the game as new applications are introduced. As a recognized mobility expert, ASAP Automation continues to reach for its goal of becoming a Microsoft Certified Gold Partner, the highest partnership level with Microsoft.

ABOUT ASAP Automation - For over 17 years, ASAP Automation has been a leader in providing Supply Chain Execution (SCE) Software and Automation Technologies. ASAP's expertise is in the integration of information and material flow for distribution and manufacturing operations. As a SCE software provider, ASAP can serve as a single source supplier from concept engineering design to final implementation and support.
